PROFESSIONAL SUMMARY

Full Stack Developer with **7+ years** of experience specializing in high-performance web and mobile applications across **fintech, e-commerce, aviation, and enterprise analytics**. I combine deep frontend expertise with full stack capability to deliver solutions that are technically sound and measurably impactful. Known for clear communication, end-to-end delivery, and driving real business outcomes. I have led frontend architecture, built design systems, implemented enterprise security (MFA, SSO, PCI DSS), and driven UX transformations that moved NPS from +8 to +40.

SERVICES & RATES

SERVICE	RATE	DESCRIPTION
Web Development	From \$30/hr	End-to-end web apps using modern frameworks
Frontend Development	From \$40/hr	Pixel-perfect React & Angular interfaces
Mobile App Development	From \$50/hr	Cross-platform apps with Ionic
Dell Boomi Integrations	From \$50/hr	NetSuite, Salesforce & enterprise systems
AI Chatbots	From \$30/hr	Conversational AI for customer engagement
Technical Consulting	From \$75/hr	Architecture reviews, audits & mentorship

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Angular, Redux, HTML5, CSS3, Ionic
Backend: Node.js, Python, Java
Databases: PostgreSQL, MySQL, MSSQL, MongoDB
Integrations: Dell Boomi, Salesforce, NetSuite
Tools: Git, Webpack, Jest, CI/CD, LaunchDarkly, Mixpanel, Appcues, Hotjar

SELECTED PROJECTS

Fintech Spend Management Platform <i>React, Redux, TypeScript</i> — Led frontend architecture for spend controls, card management, and reconciliation.	20% faster delivery
E-Commerce & Mobile Platform <i>Angular, Ionic, Node.js</i> — Built full-stack e-commerce solution including website, admin panel, and mobile app.	5X sales increase
Enterprise Asset Tracking (Aviation) <i>React, PostgreSQL</i> — Developed asset management application used globally across major airports.	25% fewer losses
Security & Auth Suite + PCI DSS <i>React, MFA, SSO, CSP, SRI</i> — Implemented MFA, SSO, RBAC, IP restrictions, and achieved full PCI DSS compliance.	75% fewer incidents
Design System & Component Library <i>React, Design Systems</i> — Built reusable, customizable component library adopted across entire product.	35% dev efficiency
UX Transformation <i>Mixpanel, Appcues, UX</i> — Drove comprehensive UX improvements through data-driven analysis and iteration.	NPS +8 to +40

End-to-End Delivery • Proven Track Record • Clear Communication • Modern Tech Stack • 4 Industries
